http://service.users-paypal.com/index.php?_alert_id=3Dpaypal

Do they seem like ordinary URL s to you?

Well have a look again...these URLs have caused losses amounting to millions to these service providers and their users...these are fake URLs created by phishers

Of course they look like ordinary long URL's.....so you are already scared of encountering them and I haven't even started about the 'pharmers', key loggers and men in middle.

APPLY A BRAKE TO YOUR FEARS AND LOGIN TO THE FUTURE

YOU NOW HAVE THE P-CARD

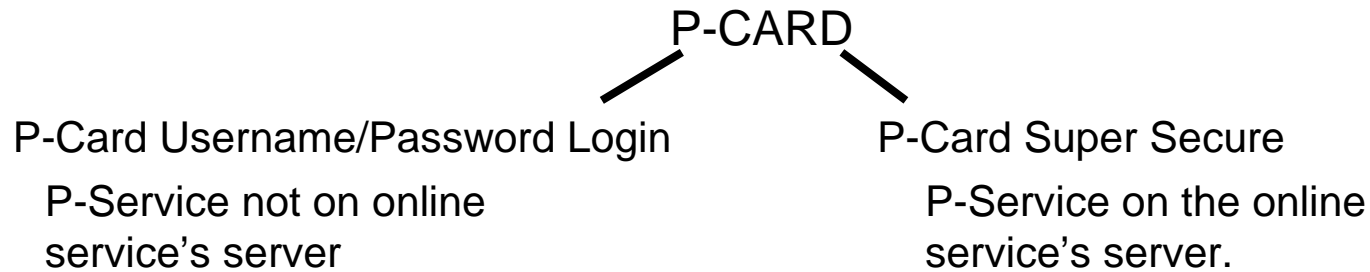

P-CARD
YOU ARE SECURED

PRESENTING.....THE P-CARD

P-CARD COMES WITH A SMART CARD, SMART CARD AND FINGERPRINT READER AND THE P-SERVICE.

TO THE END USER.....

Edit Personal Details

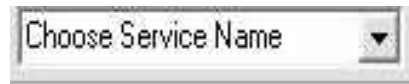

Edit the details in your P-Card.

Super Secure Data Transfe

Safest method for data transfer... key loggers

Automatic log on chosen service....key loggers ciao!

Add new services to your list

WHY P-CARD?

Losses due to increasing online thefts have gone up to US\$ 2 billion in the US in 2005

5 million online users across the globe need the P-Card

- Increased customer base for online services
- Convenient toolbar at your browser
- One time investment for secure future
- Freedom from user names and passwords

- P-Card lost?...do not worry
- No access to personal information without fingerprint authentication
- Direct entry of personal details from the P-Card, no typing anymore.
- Super encryption using RSA algorithm

LAUNCHING THE P-CARD

The cost of deploying our service would be far less than the losses incurred by the online services.

Minimal cost due to ever falling prices of smart card and fingerprint readers.

Laptops with fingerprint readers provide an ideal platform for this application.

P-Card would prove to be an acceptable application as it can be launched without making any major changes in the existing system.

To bring about a renaissance in the domain of online security, to change the way you managed your identity, to change the way you used online services..... Coupling the inimitability of your fingerprints with superior cryptography..... now at your service is the *P-Card*.
